## CO<sub>2</sub>e-neutrality 2021

We herewith confirm that the Product Carbon Footprint of the following products of the brand “Holle” was assessed:

All Organic Infant Milk Formulas (Cow’s Milk and Goat’s Milk), all Organic Infant Formulas from A2 milk, Organic Whole Goat Milk Powder Family, all Organic Grain Porridges, all Organic Grain Porridges with Milk, all Organic Pouches (fruit puree, fruit puree with cereals, fruit puree with vegetables, vegetable puree).

We herewith confirm that Holle baby food AG purchased the equivalent in Carbon Credits to neutralize the calculated emissions. The required Carbon Credits for 2021 were retired at the respective registries.

The CO<sub>2</sub>e footprint of the products was calculated based on the guidelines of the Greenhouse Gas Protocol. The Carbon Credits were generated at the “Kariba Forest Protection Project” in Zimbabwe and in a regional project with two Demeter farms (cereal growers) in Germany.
